All our trade returns are now directed to and processed by our Denton depot. The returned items are then checked, accepted or rejected.

The returns procedure from receipt are completed within 7 – 14 days from receipt.

No exact number of days for a refund can be quoted. We will endeavour to process any refunds back onto your account well within the timeframe i.e. the 14 days quoted.

Please can we take this opportunity to remind our customers to put completed returns forms in the box. A fully completed returned form will speed up the processing of your credit.

If returns are received with no paperwork/returns form the returns will be rejected and after 3 months will be disposed of if information has not been received by that deadline.

No credits will be issued until the procedure at the Denton depot has been completed.
